

# GISERA Communiqué

National Management Committee Meeting #5  
12 April 2017

The GISERA National Research Management Committee (NRMC) held its fifth meeting on 12 April 2017 at Santos offices in Sydney and via telephone.

Overall, GISERA has committed \$18.8 M to ongoing research projects and the 28 research projects are an average of 68% completed. No new projects have been approved since the last NRMC meeting.

The GISERA Director noted that there had been 47 engagements during the latest quarter, bringing the total engagement since GISERA's commencement to 736.

Ongoing development of a new Stakeholder Roundtable Group was discussed, including capping attendees to 18 and ensuring the group is representative of different interest groups. Meeting frequency would be determined by stakeholder interest, content and availability of members.

GISERA's Annual Symposium was proposed for October 2017 in Brisbane.
