Gas Industry Social and  
Environmental Research Alliance

## GISERA Communiqué

Stakeholder Roundtable Group

13 November 2017

The inaugural Stakeholder Roundtable Group (SRG) meeting of the Gas Industry Social and Environmental Research Alliance (GISERA) was held in Sydney on Monday November 13, 2017.

The chief aim of the roundtable is to gather perspectives to help CSIRO identify how GISERA can better serve our stakeholders.

The meeting provided stakeholder representatives from diverse backgrounds with an opportunity to express their views on what they perceived was working well, issues and areas of concern, and perspectives for improvement and GISERA's future focus.

Roundtable members identified priority communication and engagement issues, followed by discussion about opportunities to enhance communications to wider stakeholder groups.

CSIRO is committed to sharing more information about stakeholder communication and engagement planning and future strategies at the next Stakeholder Roundtable meeting planned for the second quarter of 2018.

CSIRO greatly appreciates the contributions made and time provided from all SRG members.

Stakeholder Roundtable Group attendees:

- Damian Barrett, CSIRO
- David Blowers, Grattan Institute
- Ian Cronshaw, International Energy Agency
- Matt Grudnoff, The Australia Institute
- Tony Mahar, National Farmers Federation
