

CSIRO's GISERA Communiqué

Stakeholder Roundtable Group

4 November 2019

The third CSIRO Gas Industry Social and Environmental Research Alliance (GISERA) Stakeholder Roundtable Group meeting was held in Canberra on Monday, 4 November 2019.

A presentation from EnergyQuest's Graeme Bethune on stakeholder perspectives and onshore gas opportunities and challenges provided a stimulating introduction to the day, which encouraged stakeholders to engage in transparent and constructive discussions about onshore gas issues and opportunities and CSIRO's GISERA research.

The Department of Environment and Energy's Rob Sturgiss provided an overview of Commonwealth perspectives on fugitive greenhouse gas emissions, which was then followed by three CSIRO researcher presentations on key findings from various projects within CSIRO's GISERA Greenhouse Gas portfolio.
